## Bug Fixes

- In some circumstances, a user that is selected to be notified on a task, note, or appointment template will continue to receive notifications after the user had been deactivated
  - If you opened a legacy email, created a hyperlink, used the further options, and create a saved link, the saved link would not contain the necessary tracking information
  - "Unpublished" or "Unpublished and deleted" campaigns would still function if a contact was added by an "Add to sequence" process from another campaign
-
